ABOUT ME

I am a third year student in mechanical engineering at the University of Iceland. I am dedicated to my studies and have a strong work ethic. I have an interest in a wide array of topics in the field of engineering and innovation. I enjoy working with others on projects but I am also good at solving problems on my own. In my free time I like making music, travelling and meeting with friends.

EDUCATION

Bachelor of Science, University of Iceland, Reykjavík
2025

Mechanical engineering. 180 ECTS completed by May 2025. GPA 8,76.
